What is eM Client?

eM Client integrates email, calendars, tasks, contacts, notes, and chat in a clean and simple desktop app.

Switching to eM Client is super simple - you can automatically import your data from Microsoft Outlook, Outlook Express, Windows Mail, Thunderbird and other software.

eM Client can be easily synchronized with a Microsoft 365 server or any other email service.

Why use Microsoft 365 with eM Client?

Full Microsoft 365 support

eM Client is developed to work with Microsoft 365 and supports Mail, Calendar, Contacts and Tasks. It is the only email app on the market with full support of server-side rules and search, shared email and calendar folders, snooze and "Watch for replies" features.

Fast, clean, yet powerful

eM Client is packed with unique advanced features, but it's fast and light compared to its competitors.

VIP support

The eM Client support team pays attention to every problem of all of our customers, so they are never left without a solution.

How to mix Microsoft 365 + eM Client?

Lower the software costs

Simply replace the expensive Microsoft 365 subscriptions with the lighter Business Basic or Enterprise F3 package. You will keep the powerful Microsoft 365 server and connect all your data to eM Client 8.
