Calendars and Tasks

eM Client helps to organize your workflow, smart and easy. Calendars and tasks are extremely functional and well-suited for a variety of business needs.

- Various calendar views with beautiful interface
- Daily agenda sidebar
- Calendars and tasks sharing
- Meeting invitations and confirmations (iMIP/iTIP)
- Reminders
- Free / busy view support
- Advanced search and filtering
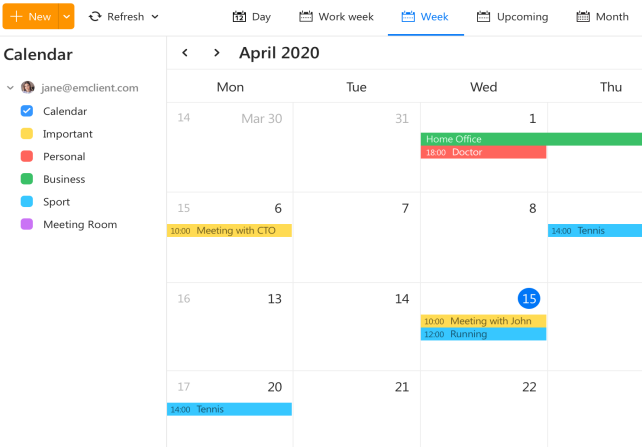

Contacts

eM Client provides a comprehensive contact management. This includes several views, numerous data fields, categorization, communication history and much more.

- Custom contact views
- Exhaustive number of data fields
- Full-text search (also within attached documents' content)
- Automatic Contact Avatar Downloading
- Easy contact merging
- Communication and attachment history
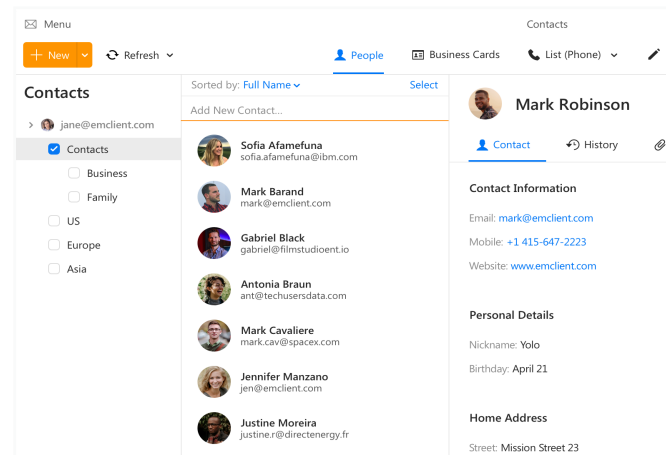

Notes

eM Client fully supports local and server-side Notes. Now you can keep your notes accessible and updated across all your devices.

- Full support for local and server-side Notes
- Sync with Exchange, Office365, and IceWarp
- Straightforward notes editor
- Notes formatting
- Tags in Notes
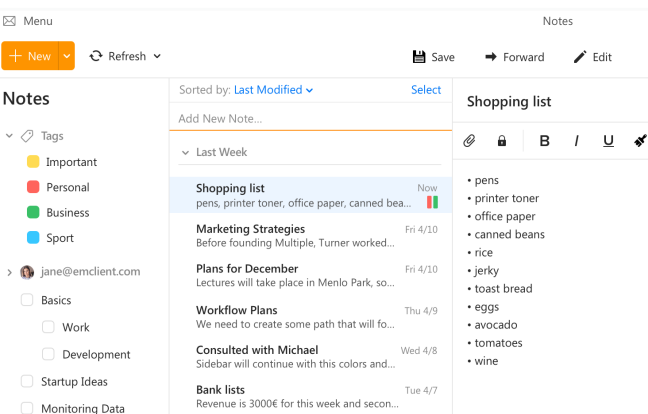

Chat

eM Client includes integrated chat, so you can send instant messages to your friends or colleagues without switching apps.

- Chat interface works inside the application or as a detached window
- Jabber or any other XMPP based service
- File transfer support
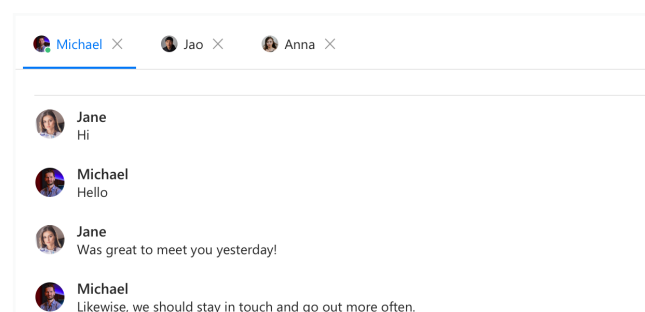

Smooth deployment and wide compatibility

eM Client is easy to configure and requires almost zero maintenance.
It's simple and intuitive to use, therefore no particular training is needed. Central configuration and automatic setup speed things up for admins. Even message encryption is a simple matter of a few clicks.

G Gmail + eM Client

eM Client allows easy configuration and full synchronization with Gmail and Google Workspace. Sync includes email, calendars, contacts and tasks. eM Client can replace MS Outlook, enabling companies to fully utilize Gmail's potential.

- Email access while offline
- No configuration required
- Synchronized calendar and contacts
- Google chat support (XMPP)
- Tasks assignment
- Secure communication with encryption
- Central admin tool

E⊠ Exchange + eM Client

Combined with Microsoft Exchange, eM Client can replace Outlook, syncing your emails, contacts, calendars, notes, and tasks. Enjoy the functionalities of your MS Exchange account with no limitations of Outlook! eM Client supports MS Exchange 2007 and newer.

- Shared mail and calendar folder access
- Work in Offline Mode
- Synchronized notes, calendars, tasks, and contacts
- Secure communication with encryption
- Server search and server-side rules
- Public folders
- Central admin tool
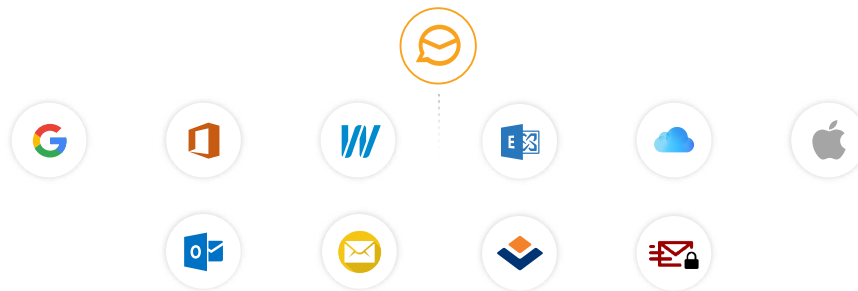

Price Comparison with Outlook 365		1 year	3 years	5 years
Microsoft 365 Business Standard (Exchange server **with Outlook** + Cloud services + Other apps)	1 license	$ 150	$ 450	$ 750

eM Client

Centralized configuration from cloud

Our Server Settings technology allows you to deploy any settings from a cloud to all your installed clients

- Establish a company-wide color theme
- Provide centralized signatures, templates, or Quick Texts (reusable text snippets)
- Set up accounts centrally from the cloud
- Restrict users to ensure only company emails or company chats are accessed on their computers or devices
- Force all employees to send encrypted emails only
- Customize client in any way company-wide

Simple import and setup

eM Client is able to set up everything automatically for most of the services. It also efficiently imports your data from all major email clients. This includes Microsoft Outlook, Outlook Express, Windows Mail, Thunderbird and more.

More fabulous features

- Deduplication tool
- Customizable widgets
- Sidebar for quick access
- Full touch support
- Localized to 25+ languages
- Automated Backup tool

Automated deployment

eM Client can be easily installed company-wide thanks to MSI package support, automatic setup with pre-defined scripts, and server settings.

Easy migration

Data import from other solutions is straightforward, and mostly automated.
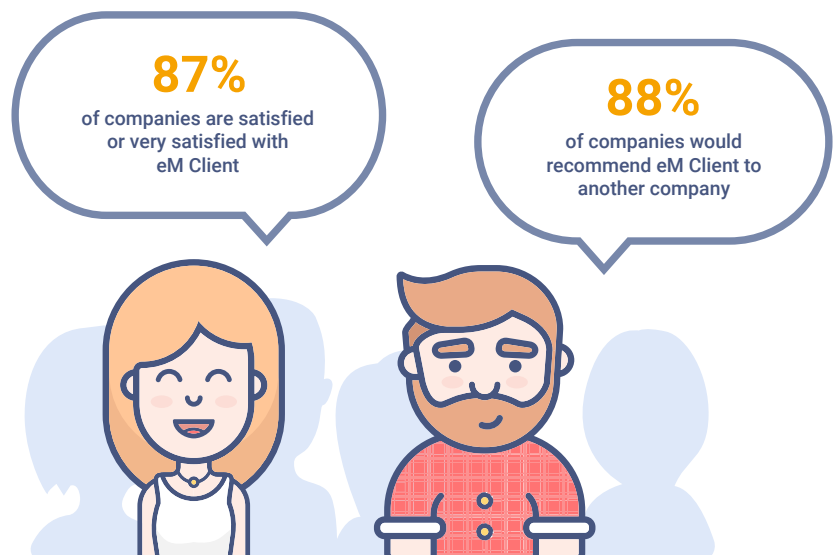

VIP support

We provide remote support and individualized approach. If required, you can opt for a customized SLA.

Branding and customization

Customize eM Client to fit your brand. Set company-wide templates, centralized signatures or avatars.

Company-wide encryption

Easily secure email communication in your company with PGP technology. **Share your public keys via eM Keybook**, a unique public key directory, so everybody can send encrypted messages to you. This will generally simplify encrypted communication for all. eM Client can also force all employees to send only encrypted messages.

87%
of companies are satisfied or very satisfied with eM Client

88%
of companies would recommend eM Client to another company

Interesting facts

from our customer survey that collected feedback of 250 business customers:

- Most of the migrations to eM Client are from MS Outlook
- Most of the companies use eM Client with MS Exchange or Google Workspace
